Micropurchase domain model

Customer
- agency_name string ∘ U
- contact_name string
- email string

User
- contracting_officer boolean ∘
- duns_number string ∘
- email string ∘
- fms_number string ∘
- fms_status integer ∘
- github_id string ∘
- github_login string ∘
- is_mwbe boolean ∘
- name string ∘
- payment_url string ∘
- sam_status integer ∘
- small_business boolean ∘

ClientAccount
- active boolean
- billable boolean ∘
- name string ∘ U
- tock_id integer ∘

Delayed::Backend::ActiveRecord::Job
- attempts integer ∘
- auction_id integer
- failed_at datetime
- handler text ∘
- last_error text
- locked_at datetime
- locked_by string
- priority integer ∘
- queue string
- run_at datetime

InsightMetric
- href string ∘
- label string ∘
- label_statistic string ∘
- name string ∘
- statistic string ∘

Auction
- accepted_at datetime
- billable_to string ∘
- c2_proposal_url string
- c2_status integer ∘
- customer_id integer FK
- delivery_due_at datetime ∘
- delivery_status integer
- delivery_url string
- description text ∘
- ended_at datetime ∘
- github_repo string
- issue_url string
- notes text
- paid_at datetime
- published integer
- purchase_card integer ∘
- rejected_at datetime
- start_price integer ∘
- started_at datetime ∘
- summary text ∘
- title string ∘
- token string
- type integer
- user_id integer FK

Skill
- name string ∘ U

Bid
- amount integer ∘
- auction_id integer ∘ FK
- bidder_id integer ∘ FK
- via string
